

FESTIM REÇI

.NET DEVELOPER

Kosovo | festimrecidev@gmail.com | linkedin.com/in/festimreci | github.com/FestimReqi | festimreci-dev.netlify.app

• PROFESSIONAL PROFILE

Backend-focused Software Developer with 3 years of experience across professional and independent projects. Builds production web applications, REST APIs, authentication and authorization systems, reporting features, and database-driven business platforms. Strong with C#, ASP.NET Core, Entity Framework Core, PostgreSQL, clean architecture, debugging, and maintainable code.

• WORK EXPERIENCE

Software Developer - DataProgNet | Apr 2026 - Present | Ferizaj

- Develop enterprise applications using Angular, ASP.NET Core, REST APIs, relational databases, and role-based authorization.
- Implement business workflows, filters, reports, exports, validation, integrations, and permission-based features.
- Apply modular and clean architecture principles while supporting debugging, optimization, and stable releases.

Full-Stack Developer - Freelance / Self-Employed | Feb 2023 - Present | Remote

- Built backend-focused and full-stack applications with C#, ASP.NET Core, Next.js, React, PostgreSQL, SQL, and MongoDB.
- Developed JWT authentication, refresh-token flows, RBAC, audit logging, dashboards, payments, and integrations.
- Deployed and maintained applications on Linux/VPS environments using Git, Docker basics, and CI/CD practices.

Web Developer - OXA Group | Nov 2024 - Sep 2025 | Ferizaj

- Developed internal dashboards and business systems connected to APIs and database-driven workflows.
- Supported maintenance, debugging, performance improvements, and delivery of production features.

Full-Stack Developer - AlbiSoft GmbH | Feb 2024 - Oct 2024 | Prishtina

- Contributed to enterprise web platforms, CMS modules, APIs, forms, tables, filters, exports, and reusable components.
- Translated business requirements into maintainable, working software.

• SELECTED PROJECTS

FlowMetrics - SaaS Analytics Platform | ASP.NET Core, EF Core, PostgreSQL |

- Implemented authentication, refresh tokens, RBAC, customers, invoices, reports, audit logs, soft deletion, health checks, and API documentation.

PromptVault - AI Prompt Library | ASP.NET Core, Clean Architecture |

- Structured Domain, Application, Infrastructure, and API layers using EF Core, MediatR, FluentValidation, JWT, and PostgreSQL.

• TECHNICAL SKILLS

.NET C#, ASP.NET Core Web API, EF Core, LINQ, dependency injection, middleware, Swagger/OpenAPI

Architecture Clean Architecture, REST, OOP, SOLID, modular services, microservices fundamentals

Data PostgreSQL, SQL, SQL Server concepts, MongoDB, migrations, modeling, filtering, query optimization

Quality xUnit fundamentals, validation, debugging, logging, code review, maintainable code

DevOps Git/GitHub, Docker basics, Linux/VPS, CI/CD basics, Postman, Agile workflows

Frontend Angular, React, Next.js, TypeScript, JavaScript, HTML, CSS

• STRENGTHS

- Backend problem-solving
- Production support mindset
- Fast learner and adaptable
- Independent and team delivery
- Clear technical communication

• EDUCATION

BSc, Industrial Engineering with Informatics

University of Applied Sciences in Ferizaj
2019 - 2023

• LANGUAGES

Albanian Native

English Professional working proficiency

• CERTIFICATES

- Web Application Development Professional (2023)
- MERN Full-Stack Developer + Networking (2023)
